Academic Ethics Policy

Hallmarks of a Johns Hopkins University School of Nursing education include acquisition of skills and knowledge while building character and independence. Essential components of this education are innovation, truthfulness, insight and respect.

The School of Nursing Ethics Policy is based on the shared core values stated in the School's Values Statement. Each member of the School of Nursing community, whether student, faculty or staff, holds himself or herself and others to the highest standards based on the values of excellence, respect, diversity, integrity and accountability.

Students enrolled in the Johns Hopkins University School of Nursing are expected to conduct themselves in a manner that upholds the values of this institution of higher education. Each student is obligated to refrain from violating academic and professional ethics principles and non-academic standards of conduct.

The complete Academic Ethics policy is distributed to students yearly and can be accessed at <http://nursing.jhu.edu/academics/documents/ethics-policy.pdf>
