COURSE NUMBER AND TITLE
NR.110.205 Physiology with Lab

CREDITS
4 credits

PRE- AND COREQUISITES
Anatomy lab strongly encouraged

COURSE DESCRIPTION
This course will introduce the functions and regulation of major human body systems. Students will learn how the parts within a body system work together to seamlessly accomplish tasks. There will be discussion of the regulation of organ function, a critical component of physiology. After an introduction on electrolytes, the physiologic processes to be covered include functions of the cardiovascular system, lymphatic system, and digestive system, among others. Upon completion of the course, students will have an understanding of normal healthy anatomical function that will prepare them for professional health programs. This course includes a virtual laboratory component designed to complement lecture topics.

OBJECTIVES
The course objectives are organized in line with the program outcomes. At the end of the course, the student will be able to:

1. Describe the functions and interactions of major organ systems in human body.
2. Explain the mechanism and importance of maintaining water, electrolytes, acid-base balance.
3. Discuss the function of the cardiovascular system.
4. Describe the key purpose of the lymphatic and specific cranial elements.
5. List the functions of the components necessary for respiration, digestion, and urination.
6. Identify the functions of the regulatory elements, i.e. hormones, of the reproductive systems.

REQUIRED TEXTBOOKS AND OTHER COURSE MATERIALS
Access to McGraw-Hill Connect Plus with LearnSmart/LearnSmart Labs: Students must purchase access code to Connect Plus in order to access the assessment items and other learning materials for this course. Please do not purchase from any 3rd party vendor before reviewing the information presented in the Blackboard course site.

Access to LearnSmart Labs (LSL): This program will be used mainly for the lab portion of the course. Access to LSL is included in McGraw-Hill Connect Plus describe above. You do not need to purchase a separate access card for this program.

Access to a reliable computer and internet connection: It is recommended that students using Windows- based computers should have the Windows 7 or newer operating system, and that Mac users have OS 10.6 or later. We also recommend that you use the most updated version of Google Chrome as your web browser for this course. Other operating systems and web browsers may not be fully supported by the Blackboard and Late Nite Labs software. Please see the Blackboard course site and the Late Nite Labs website for detailed system requirements.

### LEARNING ASSESSMENTS/ASSIGNMENTS

**Graded Module Quizzes**

These are timed quizzes that are designed to test your mastery of the material covered in each module and keep you on track in your reading. The quizzes are open book and open notes. One attempt is allowed for each quiz. There are 10 graded quizzes in total in this course.

**Lab Sessions**

Lab sessions will be done via LearnSmart Labs by McGraw-Hill. An average of 60% must be achieved in the lab component of the course in order to for you to pass the
Discussion Boards
Weekly discussions can be accessed from “Discussion Board” link on the left-side menu of the course site, or from within each module. There are 5 discussion board assignments for this course. Additionally, there is an optional discussion board for lab sessions.

Exams
There are three exams consisting of multiple choice and short answer questions. They are open book, open notes and timed. Only one attempt is allowed for each exam. There are no makeup exams.

Optional Learning Activities
Throughout the course, you will find Knowledge Check activities after each recorded lecture and Practice quizzes under the section in each module. In addition, SmartBook readings are also available if you prefer to read the textbook online. The Knowledge Check, Practice quizzes and SmartBook reading assignments provide self-assessment of the information presented in the lectures and the textbook and are not graded or counted towards your final course grade.

ACADEMIC POLICIES
For a full list of academic policies, please see the current academic catalog and handbook.

COURSE POLICIES
All course assignments must be turned in by the specified due date and time. Once the due date and time have passed, 10% of the total points you have earned on the assignment will be deducted per day (per 24 hour period). There are no makeup or extra credit assignments allowed, and assignments submitted more than 7 days late will not receive credit. Please contact the course instructor prior to the due date in the case of extenuating circumstances.

GRADING SCALE
HONOR CODE

Students enrolled in the Johns Hopkins University School of Nursing are expected to conduct themselves in a manner that upholds the values of this institution of higher education. Each student is obligated to refrain from violating academic ethics and maintaining high standards of conduct. In addition, the School of Nursing upholds the professional code of ethics established in the Code of Ethics for Nurses (ANA, 2015). Each student is held accountable for adhering to the American Nurses Association Code of Ethics. For the full Johns Hopkins School of Nursing Honor code, please see the current academic catalog and handbook.

EXAM INTEGRITY & STUDENT IDENTIFICATION VERIFICATION

This course may require the use of technology and/or software to ensure exam integrity and verify the identity of the student taking the exam. Additional information and directions will be provided in the course website.

COMMUNICATION POLICY

Students may communicate with the instructor by email, which is provided in the Contact Information area. The instructor will respond to students within 48 hours. Assignment feedback will be provided to students within two weeks of submission.

All official communication, notices, & announcements will be distributed through student JHU-SON e-mail accounts via blackboard. The student is accountable for checking this account regularly and for all course communication sent to it.

Students are responsible for reading “Netiquette” which is located under Syllabus & Course Info on the Blackboard site. Netiquette provides simple guidelines for civil online discourse & behavior, that participants are to follow and expect of one another.
