

Postdoctoral Fellowship Position Fall 2021

University of Texas Health Science Center
School of Public Health
Houston, Texas

Position Description

Join our nationally recognized postdoctoral training program housed within a thriving multidisciplinary environment in the largest medical center in the world! Expand your training and research experience taking advantage of opportunities for collaborations in diverse populations across Texas, the U.S., and abroad. We are seeking a postdoctoral fellow to start September 1st, 2021. This postdoc position is supported by the National Cancer Institute (T32) funded Cancer Control Research Training Program at UTHealth. Our faculty are internationally recognized in the areas of implementation research, cancer control and population sciences, health equity, cancer epidemiology, among others, with high levels of NIH, CDC, State, and foundation funding providing many opportunities to build a strong research program.

Experience and/or interest in implementation science, health equity, community engaged research is highly desirable. Applicants from underrepresented minority groups are strongly encouraged to apply. Fellows will receive support for up to 2 years and annual stipend starting at \$50,004, depending on experience plus health insurance, tuition, fees, books, software, and travel.

Position Eligibility

Individuals with a PhD, DrPH, MD, or other doctoral degree in public health, health promotion, behavioral or social science, epidemiology, health services research, health policy, health economics, biostatistics, or data science. *Open to U.S. citizens and permanent residents only.*

Training Directors

María E. Fernández, PhD
Sally W. Vernon, PhD
Patricia Dolan Mullen, DrPH, MLS

Mentors

Over 25 accomplished mentors from all public health disciplines with robust research portfolios
