GRADUATE EMPLOYMENT SUMMARY
AUGUST 2018-MAY 2019

100% PhD

100% DNP EXECUTIVE

95.2% MSN ADVANCED PRACTICE

97.6% MSN ENTRY TO NURSING

MSN ENTRY TO NURSING
Employment Rate: 97.6%, *Based on data from 98.8% of graduates

MSN ADVANCED PRACTICE
Employment Rate: 95.2%, *Based on data from 95.5% of graduates

The MSN Advanced Practice is a teach-out program and we are no longer admitting applicants at this level. Advanced practice programs are now offered at the DNP level, with our first cohort graduating in May 2020. As of Fall 2019, the program is offered online. This data reflects a population who had to complete all classes and clinicals locally and thus tended to stay in the area for employment.

PhD
Employment Rate: 100%, *Based on data from 100% of graduates

Most PhD graduates accept post-doctoral fellowships or faculty positions with nursing. Graduates have also gone into research positions at organizations including the CDC and NIH as well as consulting positions at organizations including The Advisory Board Company.

DNP EXECUTIVE
Employment Rate: 100%, *Based on data from 100% of graduates

This program is delivered online, with periodic on-site immersions, so individuals tend to stay in their current positions throughout the program. These positions span academic, clinical, leadership, and research roles.
