

What is OneHop Mentoring?

Discover an easy to use **networking** platform that allows you to build **authentic** and **exclusive** connections with JHU alumni.

What happens when I sign up?

Alumnus recommendations will be made based upon your profile information. You can also browse our community of professionals by industry, major, location and more. Once you reach out to connect, you will be offered different options to schedule and conduct a meeting. The method you use to hold your meeting (virtually or in-person) will be up to you and the alum to coordinate.

How can I get the most out of this?

Be active! Ask questions, and make new connections. Don't be afraid to reach out to someone. People are waiting for you to connect with them. Everyone in our community is here to support you. Also check of the discussion board to see the types of information that is being shared by students and alumni.

How do I get started?

1. Visit onehop.jhu.edu/hub/mentoring & click "Join Our Community!"
2. Log-in with JHED ID and password.
3. Complete your profile.
4. Start exploring the networking community!
