

Title: Interdisciplinary Communication Enhances Standardization of Preoperative Medication Administration for Adult Inpatients in an Acute Care Setting

Abstract (word limit 40):

Interdisciplinary communication regarding the day of surgery medication plan for inpatients is minimal and not standardized leading to medication errors and omissions. The purpose of this project is to standardize the preoperative medication administration process for adult inpatients on the day of surgery by enhancing interprofessional communication in order to improve patient outcomes.

Revised Abstract after peer response:

Interdisciplinary communication regarding the day of surgery medication plan for inpatients is not standardized leading to medication errors and omissions. The purpose of this project is to standardize the preoperative medication administration process for adult inpatients by enhancing interprofessional collaboration.

Author Guidelines

MEDSURG Nursing, the official journal of the Academy of Medical-Surgical Nurses, is a scholarly journal dedicated to advancing evidence-based medical-surgical nursing practice, clinical research, and professional development. The journal's goal is to enhance the knowledge and skills of medical-surgical nurses to promote health, prevent and manage disease, and improve the health status of patients and their families. Unless clearly specified, the views expressed in articles, editorials, and letters published in **MEDSURG Nursing** represent the opinions of the authors and do not reflect the official policies of AMSN.

[Download the **MEDSURG Nursing** Guidelines for Authors \(Acrobat\)](/msnjfiles/msnj_authorguidelines.pdf)

The journal accepts original articles: case studies, letters, descriptions of clinical care, and research. Query letters are welcome, but not required. Material must be original and never published before. Material is submitted for review with the understanding that it is not being submitted to any other journal simultaneously. **MEDSURG Nursing** is a refereed journal. All manuscripts submitted undergo review by the editor and blind review by members of the manuscript review panel and/or editorial board members. Each manuscript is reviewed on its timeliness, importance, clarity, accuracy, and applicability to adult health/medical-surgical nursing. Upon acceptance of the manuscript, the author will yield copyright to **MEDSURG Nursing**. Acquiring permission to reprint previously published materials is the responsibility of the author. Authors have the responsibility to verify that they have read all the materials cited in their manuscript and, if necessary, have contacted the relevant authors to verify the accuracy of cited material. Manuscripts are subject to copy editing. The author will receive proofs via email for review prior to publication.

Manuscript Preparation

Manuscripts must be typewritten, double-spaced, on 8.5 x 11 inch white paper; maximum length is 15 pages (3,750 words). References, photographs, tables, and all other details of style must conform to the Publication Manual of the American Psychological Association (APA, 6th ed., 2010). Below are general manuscript guidelines. **MEDSURG Nursing** also has developed more in-depth guidelines for specific types of manuscripts, including **research, continuous quality improvement reports, systematic reviews, and clinical case studies**. Please refer to those guidelines when applicable.

- **Software:** As a general rule, all files should be saved as MS Word. Manuscripts must not contain reference software codes, and the use of reference software is highly discouraged.
- **Title Page:** Include the manuscript title, authors' names, credentials, and a brief biographic statement. Also include an address for correspondence, email address (required), day and evening phone numbers, fax number, and a brief abstract of 40 words or less.
- **Research Manuscripts:** Requirements vary by type of research. Please refer to

Guidelines for Research Manuscripts.

- **Subheadings:** Include subheadings in the manuscript where possible. Type all subheadings flush to the left margin.
- **References:** Manuscripts that do not comply with reference and style requirements of the APA Manual (6th ed.) may be returned to the author for revision before peer review. References in the text should be cited by author and date, for example (Evans, 2009), with page numbers cited for direct quotations. The reference list at the end of the manuscript should include only those references cited in the text, and be arranged alphabetically by author. **Important:** All references must be current, and from the last 3-5 years. If you are citing a study that is considered "classic," please include a current citation to validate the information.
- All citations should reference primary sources. The use of secondary sources (material analyzed or interpreted from the primary source) is discouraged. If necessary, locate a copy of the original work and credit it as such. Sample references are: **Periodical:**
 - Evans, M.M. (2009). Solutions to the Nurse Faculty Shortage: A Response to the AACN. *MEDSURG Nursing*, 18(6), 387-388. **Book:**
 - American Psychological Association (APA). (2010). *Publication manual of the American Psychological Association* (6th ed.). Washington, DC: Author. **Chapter in a Book:**
 - Gray, M. (2008). Management of men with reproductive disorders. In J. Black, & J. Hawks (Eds.), *Medical-surgical nursing: Clinical management for positive outcomes* (8th ed.) (pp. 873-911). Philadelphia, PA: Elsevier. **Website:**
- It is no longer necessary to include the date a citation was accessed, unless the material will change over time.
- **Figures:** These include line drawings, photographs, diagrams, and graphs. Each should be numbered, and the number must correspond to a statement in the manuscript directing the reader (see Figure 1). Include a legend sheet with captions. When using figures adapted or obtained from another source, the author must obtain written permission **for both print and electronic use** from the original publisher.
- **Photographs:** Camera-ready photographs may be black and white or color. Photos should be glossy, 5"x7". Electronic files (JPGs) must be in high resolution, 300 dpi; they may be inserted directly into the manuscript. Please note images found on Google, Bing, or other Internet search engines are not public domain; permission from the original source (not Google) must be provided.

Publication

Authors will be notified of a manuscript's acceptance within 12 weeks of receipt, with publication scheduled to the next available issue. Authors may purchase reprints of their articles at the time of publication. If contact information (address, email address), or biographical information changes during time of acceptance to publication, please contact the journal office to update your information.

Please submit manuscripts to: Editor, MEDSURG Nursing
