CLINICAL ACTIVITIES

Clinical Focus

My clinical focus is general pediatrics. I have always had a special interest in obesity prevention and treatment, eating disorders, and PANDAS (Pediatric Autoimmune Neuropsychiatric Disorders Associated with Streptococcal infections). I work to deliver high quality, evidence-based primary care to children ages 0-21 years and partner with parents toward children's best health promotion. Since I have always worked in clinical settings that serve patients of low socio-economic status, a lot of my clinical work is focused on reducing health disparities and helping families with many social determinants of health. In clinical settings, I am often precepting residents and have other learners (medical students, etc.) with me, and I value the opportunity to train young physicians in best practices. My clinical work and research have always been synergistic—especially given that I study how primary care pediatricians can help families grow up with healthy habits. I have always seen clinic as a place to garner best questions to be answered through research but also as a place to bring back best evidence to serve patients. I have been listed in “Guide to America's Top Pediatricians” and “Best Doctors of America” databases numerous years. I have served in clinical leadership from 2016-2020 as Division Chief of Primary Care Pediatrics at Duke University Medical Center, overseeing 13 clinical venues. Now, at Johns Hopkins University, I serve as a continuity clinic preceptor (and occasional acute care preceptor) at the Harriet Lane Clinic.

Clinical (Service) Responsibilities

2002 - 2003 Attending physician, UNC Pediatric Acute Care Center (approximately 1-2 shifts/month).
2002 - 2004 Inpatient attending physician, UNC-CH Pediatrics wards (approximately 2 weeks/year).
2003 - 2005 Conducted pediatric medical consultations on patients with anorexia nervosa & bulimia nervosa for the psychiatry-based Eating Disorders Unit.
2000 - 2011 Attending physician in the UNC newborn nursery. Two-five weeks each year.
2005 - 2016 Attending physician and preceptor in the UNC Children's Hospital Continuity Clinic. One-two half days per week.
2017-2021 Attending physician and preceptor in Duke Primary Care House Officer Continuity Clinic. One half-day per week, given administrative roles.
2021-present Attending physician and preceptor in Harriet Lane Clinic (House Officer Continuity Clinic). One half-day per week and associated holiday and on call duties.

Clinical Productivity

Always well above the 80th percentile for clinical productivity as measured by RVUs per cFTE whenever it has been tracked.

Clinical Draw from outside local/regional area (*reflecting national/international reputation*)

In prior positions I received numerous referrals for children with possible PANDAS. However, I have not done these for many years.

Membership in or examiner for specialty board Not applicable

Clinical Program Building / Leadership

2002 - 2004 Directed the UNC "Overweight Clinic" housed in UNC outpatient clinics
2016 – 2020 Served as Division Chief of Primary Care Pediatrics, Duke University Medical Center, overseeing 13 clinical services including four outpatient faculty practice clinics, three house officer continuity clinics, two newborn nurseries, child maltreatment, healthy lifestyles, adolescent medicine, and eating disorders services.

Clinical Demonstration Activities to external audience, on or off campus

N/A

Development of nationally/internationally recognized clinical standard of care (*may not be published in peer-reviewed journals*):

Along with colleagues, I developed and tested color-coded BMI charts for children which allow for easier identification of overweight and obesity by parents and providers. These have adopted in numerous care settings, tested via a randomized controlled trial, and we are currently working on adding them to EPIC.

EDUCATIONAL ACTIVITIES

Educational Focus

I have always enjoyed teaching at multiple levels. In the clinical realm, I am reminded that medicine is a tough profession—exact and unforgiving. The stakes are high, and the patients often feel vulnerable. When I am doing clinical teaching, I want the students and residents to understand the importance of three things: listening, sensitive communication both with patients and with colleagues, and knowing what the right questions are and how to go about answering them. Since good research starts with a good question, the last of these learning goals gets at my particular interest in teaching research methods and study design. While I have taught learners at all levels and served even as a classroom teacher of clinical skills, my educational focus is mentorship in research mentoring. I am proud to have served as primary mentor/on the mentoring panel of over a dozen career development awards. I have also run two "labs" of clinician researchers (Scientific Collaboration of Overweight and Obesity Prevention and Treatment at UNC-CH and the Duke Center for Childhood Obesity Research). Finally, I have served in leadership of two postdoctoral research fellowships (Associate Program Director of the NRSA fellowship at UNC-CH and Program Director of the National Clinician Scholars Program at Duke). At Johns Hopkins, I have served as the primary preceptor to a panel of four residents at the Harriet Lane Clinic, and I currently serve as the primary mentor to three junior faculty and two post-doctoral fellows as well as a secondary mentor to many.

Teaching

Classroom instruction

2001-2004	“Introduction to Clinical Medicine” (ICM) course small group leader. Content of this two-year course for 1st and 2nd year students included the art of medical interviewing and physical diagnosis (approximately 10-12 students each year)
2001,02,04,06	“The Training and Organization of Medical Care,” guest lecturer in SOCI 10 (Introduction to Sociology), UNC
2003	“Strategies of Prevention for Clinicians,” presented to UNC SPH MPH students in the Health Care and Prevention Curriculum
2004	“Eating Disorders,” presented at the Adolescent/Young Adult Medicine Seminar Series for medical students and medicine and pediatric residents, UNC
2004-2010	Taught second-year medical students in small group sessions for the “Pediatrics in Introduction to Clinical Medicine” course (approximately 4-5 students each year), UNC Chapel Hill
2005	“Influencing Public Opinion with Research,” presented to pediatric residents, UNC
2006, 2009	“Anorexia nervosa,” presented at noon conference to pediatric residents, UNC
2006 – 2016	“Pediatrics for dentists,” presented annually to dental pediatric residents as part of their regular orientation lecture series, UNC
2007	Healers’ Art Faculty Session (approximately 4-6 medical students), UNC Chapel Hill
2008 – 2011	Serve as team advisor for one “college” of vertically organized teams of MD/PhD students
2010 & 2013	Lecturer, “Preventing and Treating Childhood Obesity: The Pediatrician's Perspective but an Interdisciplinary Message,” Invited lecture for Maternal and Child Health Seminar (medical students and undergraduate students), School of Dentistry, UNC Chapel Hill
2011 – 2013	Epidemiology 896 Small Group Leader to teach grant-writing, UNC
2011 – 2013	Epidemiology 805 (Clinical Epidemiologic Methods) and Epidemiology 806 (Clinical Epidemiological Skills) Small Group Leader, UNC
2019-2021	Bass Connections NC Early Childhood Action Plan- I was an affiliate faculty advisor of socio-emotional screening and food insecurity classes. Duke University

Clinical instruction

2002 – 2005	“Sick vs. Not Sick,” presented to UNC pediatric emergency department medical students and residents numerous times throughout 2002-2005.
2002 – 2005	“Pediatric Nutrition,” presented to 3rd year medical students as part of the COMSEP curriculum numerous times throughout 2002-2005, UNC
2005	Served as “Teach Attending” to the UNC medical students while they were on their 3rd year pediatrics rotation (variable number of students)
2005	“Eating disorders: Inpatient treatment,” presented to pediatric residents, UNC
2006	“Childhood overweight,” presented at noon conference to pediatric residents, UNC
2010-2013	Research Elective for medical students, offered several times over these years (usually one student at a time), UNC Chapel Hill
2015	“Motivational interviewing in primary care,” presented to pediatric residents, UNC
2021-	Regularly teach pre-clinical conference on a variety of topics related to well child care

CME instruction

Regional

2005	“Medical Management of Pediatric Eating Disorders,” presented for the Multidisciplinary Treatment of Eating Disorders Conference, UNC
2006	“Medical Management of Pediatric Eating Disorders in Children and Adolescents, Including Medical Management of Co-morbidities,” presented for the 2nd Annual Conference on Eating Disorders, UNC.
2006	“Pediatric Overweight: Detection and Treatment,” presented for 2nd Annual Conference on Eating Disorders, UNC
2007	“Childhood Weight Management: Tools and Techniques,” presented for 3rd Annual Conference on Eating Disorders, Overweight, and Obesity, UNC.
2009	“Management of Eating Disorders and Obesity in Children and Adolescents in Primary Care,” presented for 5th Annual Conference on Eating Disorders and Obesity, UNC.
2014	“Obesity Prevention and Treatment in Primary Care Practice,” Invited lecture for 1st Annual North Carolina Children’s Hospital Pediatrics CME Conference.
2019	“Obesity Prevention: From Clinics to Culture,” Presented for Duke Children’s Community Symposium: Update on Pediatric Obesity, Duke Health
2022	“Childhood Obesity,” Presented with Dr. Nakiya Showell for 37 th Annual Pediatrics for the Practitioner Update 2022, Johns Hopkins University

2023 “Childhood Obesity,” Presented with Dr. Nakiya Showell for 38th Annual Pediatrics for the Practitioner Update 2023, Johns Hopkins University

National

2015 Invited Panelist for Strategies and Models to Address Healthy Weight in Primary Care—both helped to create the kickoff webinar entitled “Introduction to Childhood Healthy Weight” and also led the discussion for “Key Recommendations for Ages 0-2” for MOC IV for the American Board of Pediatrics.

RESEARCH ACTIVITIES

Research Focus

My research expertise focuses on childhood obesity prevention and treatment and how pediatric care providers can prevent and treat obesity in the clinical setting, so children lead healthier lives. I studied body mass index screening, the ways physicians and families could sensitively communicate about a child’s weight status, the health consequences and correlates of obesity, and the development of “toolkits” to aid providers and patients in mutual prevention and treatment efforts, the roots of obesity, and obesity-related stigma. In addition to obesity, I have studied primary care pediatrics, patient-oriented preventive care, child development and psychosocial well-being, health services research, health literacy, the built environment, culture of health, and health disparities and health equity. My work has been supported by numerous grants, including leading a multi-site randomized controlled trial NIH R01 (N=865; Latinx 50%; African American 28%) and its competitive renewal on obesity prevention and children’s health and a multi-disciplinary and a team science grant (R24) exploring the connections between culture and health. I am now a Co-Principal Investigator on a PCORI proposal of a multi-site randomized controlled trial which has enrolled 900 parent-infant dyads and is following them through age 2.

Research Program Building / Leadership

2008 – 2017 Founding Director, Scientific Collaboration of Obesity and Overweight Prevention and Treatment (SCOOPT) Laboratory; this was an interdisciplinary group of ~25 faculty, fellows, residents, and students who meet monthly to conduct “works in progress” and develop grants, manuscripts, and abstracts in childhood obesity prevention and treatment.

2017-2021 Founding Director, Duke Center for Childhood Obesity Research; twice monthly works in progress sessions for an interdisciplinary group of ~30 faculty, fellows, residents, and students.
