Subject: Approval requirements for COVID-19-related clinical research

Dear Colleagues,

Please be aware that all COVID-19-related clinical research must be reviewed and approved by the COVID-19 Johns Hopkins Clinical Research Coordinating Committee. Please follow this link to view and submit the application form: <https://ictr.johnshopkins.edu/coronavirus/covid-johns-hopkins-clinical-research-coordinating-committee/>. Effective immediately, for new grant proposals involving COVID-related clinical research, you must obtain this approval prior to submitting your proposal to JHURA. In order to allow sufficient time for COVID-19 Johns Hopkins Clinical Research Coordinating Committee review, please plan to submit your application to the committee at least 3 weeks prior to your grant deadline.

Please reach out with any questions, Cheryl
