### Students\*\*

Unlimited 1:1 meetings

Unlimited group meetings

Chat function

Screen sharing

Local recording

Join by phone (dial-in only)

Breakout room

Polling

White board

Enforced meeting passwords\*\*\*

\*The majority of these features are enabled/disabled by the user and can drastically change Zoom functionality/appearance - IT does not recommend these because EVERY single time it's been used they have had minor to drastic problems. Virtual background for example works great but if you have curly hair, darker colored hair, a green or blue shirt, a green or blue wall etc. you can end up looking like a cartoon.

\*\*Student accounts are controlled by Enterprise/the Hospital so their features can change at any time.

\*\*\*All meetings have a password embedded into the link so no extra work is required but if joining from a phone you have to enter the password that zoom generates when the meeting is scheduled.
