

Zoom Breakout Rooms

What are break out rooms?

Breakout Rooms allow you to split your Zoom meeting in up to 50 separate sessions. The meeting host can choose to split the participants of the meeting into these separate sessions automatically or manually, and can switch between sessions at any time.

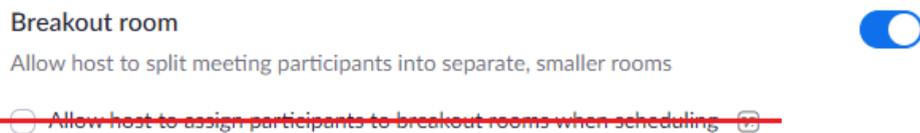

- Up to 50 breakout rooms can be created
- Max 200 total participants across all breakout rooms
- Breakout room participants have full audio, video and screen share capabilities

If the meeting is being cloud recorded, it will only record the main room, regardless of what room the meeting host is in.
