

Join SOURCE for the official book launch of “Facing (In)Justice in Health” published in partnership with Transform Mid-Atlantic and The Facing Project. This powerful collection of personal testimonies from across our community brings to light the unjust health disparities in Baltimore City — an issue that touches so many lives in our community yet is often not discussed beyond the numbers. Storytellers, writers, and other project collaborators will present selections from this important volume, and a raffle drawing will be held for audience members to receive copies of the book.
